Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/812,651	Applicant(s) YARVIS, MARK D.	
	Examiner KAVEH ABRISHAMKAR	Art Unit 2131	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This action is in response to the communication filed on March 29, 2004. Claims 1-32 were originally received for consideration. No preliminary amendments for the claims were received.
2. Claims 1-32 are currently being considered.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-8, 14-20, and 26-36 drawn to cryptographic operations in a radio system classified in class 380, subclass 270, i.e. Electronic system using cryptography in wireless communication.
- II. Claims 9-13, and 21-25 drawn to programming a radio tag, classified in class 340, subclass 10.51, i.e. Programming in an electronic communications system.

1. Inventions I and II are related as subcombinations disclosed as useable together in a single combination. The subcombinations are distinct from each other if they are shown separately useable. In the instant case, invention I has a separate utility such as generating nonces from detected radio tags, classified in a different Class/Subclass.

Art Unit: 2131

Invention II has a separate utility such as programming a radio identification tag, classified in a different Class/Subclass. See MPEP 806.05(d).

2. The inventions are distinct from the other, because of the following reasons:

(a) These inventions have acquired a separate status in the art as shown by their different classifications.

(b) The search required for each Group is different and not co-extensive for examination purposes.

For example, the searches for the two inventions would be not be co-extensive because these Groups would require different searches on PTO's classification class and subclass as follows:

The Group I search (1-8, 14-20, 26-36 would require use of search class 380, subclass 270 (not required for the invention II).

The Group II search (claims 9-13, 21-25) would require use of search class 340, subclass 10.51 (not required for invention I).

For the reasons given above restriction for examination purposes as indicated is proper.

3. Applicant is advised that the reply to this requirement in order to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 2131

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48 (b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48 (b) and by the fee required under 37 CFR 1.17 (h).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to KAVEH ABRISHAMKAR whose telephone number is (571)272-3786. The examiner can normally be reached on Monday thru Friday 8-5.
